

Micah Hoogland

POSITION

Landscape Technician

PROFESSION

Landscape Architecture

YEARS' EXPERIENCE

17

JOINED CUSP

2018

EDUCATION

BLArch (Hons) – QUT - Current

SUMMARY OF EXPERIENCE

Micah joined CUSP as a technician earlier this year. A landscaper by trade, Micah brings over a decade of construction industry experience to the team. His primary background is within the residential sector, with a particular interest in public playground, park and open space.

Micah's role at CUSP includes construction documentation, documentation review, streetscape and planting layout design, and all phases of the construction and contract administration process. His knowledge of the EDQ process across multiple council's has been valuable in the successful delivery of projects across south east Queensland.

Currently, Micah is project managing the delivery of the regional recreation park at Flagstone for PEET and is involved with the project management of the Foreshore Development for Stockland at Upper Coomera. These experiences have broadened his skills in design documentation and review, landscape design, client liason, dealing with multiple councils, stakeholders and consultants. Micah has gained invaluable experience in all phases of the construction process where he has been able to see stages through from their initial inception to construction and handover to council, all whilst ensuring smooth deliveries through project milestones.

Micah is proficient in several design software platforms, mainly AutoCAD but also Adobe Illustrator, Photoshop and InDesign and Sketch Up.
