SUMMARY OF EXPERIENCE

Christoph is an experienced Senior Landscape Architect and leads a wide range of projects across phases varying from concept design, development applications, and operational works through to tender and construction administration and construction supervision. Bringing over 16 years of international and local experience, clients benefit from working with Christoph for his detailed knowledge in flora, fauna and WSUD, that allows him to push the envelope and evolve designs which build on the natural environment of a site. Christoph has a passion for bushwalking, scuba diving and the great outdoors and has been involved in a number of community and recreation projects worldwide.
