

## **Ebony Fowler**

### **POSITION**

Landscape Technician

### **PROFESSION**

Architecture

### **YEARS' EXPERIENCE**

2

### **JOINED CUSP**

2017

### **EDUCATION**

BArch (Hons) – QUT

### **SUMMARY OF EXPERIENCE**

Ebony commenced work with Cusp in early 2017 whilst completing her bachelor of Architecture (honours) at QUT, and has been involved in a number of key projects in the concept development and DA stage, collaborating often with senior designers Andrew Tomlins and Nilesh Patel. Her technical abilities range from Revit and other CAD/3D modelling software, as well as strong proficiency in Adobe Creative suite. Ebony's skillset and diverse interests has seen her assist in implementing the office Environment Management System (EMS) and oversee the development and launch of CUSP's new website.

Ebony developed an interest for urban design and landscape following a 6 month study exchange at Czech Technical University in Prague, and extensive travel throughout Europe. Her design skills saw her awarded a Design Excellence Award in her first year of study.

Ebony's passion for design led her to attend various conferences in Australia and abroad, where she has heard from the likes of Jan Gehl and Jeremy McLeod. Ebony also wrote an article published by Architecture AU about her experience participating in 'ArchiCamp' in the Hunter Valley (NSW) in 2015, where she learned about community and environmentally sensitive design with renowned Australian architects including Richard Leplastrier and Kerri and Lindsay Clare.
