SUMMARY OF EXPERIENCE

With over 16 years' experience, John has managed a wide range of projects including urban open spaces, transport infrastructure, residential estates, parks and multi-unit apartment developments. Of particular note are Newport, Stockland lakefront residential community, the Townsville Recreational Boating Park completed in 2015 and the Landscape Masterplan prepared for the Strengthening Grantham Project in 2011. John has experience developing projects through all phases of the design process from concept design to construction supervision and contract administration.

Previous to working in Brisbane John gained experience in Sydney, working on a variety of project types including sites of national significance such as Admiralty House and Victoria Barracks.

John has a particular interest in the study and management of landscapes of cultural significance, which informs his wider design philosophy as it is applied to the initiation and development of design concepts across all project types.
