Landscape  
Architect

### PROFESSION

Landscape Architecture

### YEARS' EXPERIENCE

4

### JOINED CUSP

July 2016

### EDUCATION

BLArch (2<sup>nd</sup> Class Honours) -  
QUT

### SUMMARY OF EXPERIENCE

Stephanie Tartan is a junior member of the CUSP team, beginning her career with the Parks and Recreation Planning team at Moreton Bay Regional Council. Stephanie was nominated for the 2016 Karl Langer Award for her QUT final honours year research and design project for a healing garden for the Palliative Care Ward at Redcliffe Hospital. Stephanie is interested in how the landscape can holistically improve health and quality of life by creating places that connect people to the landscape to create opportunities for individuals and communities to thrive socially, mentally, physically and spiritually.

For the past two years Stephanie has been working closely alongside Senior Landscape Architect John Murray on Stockland Developments Newport Residential Community. To date, they have delivered vibrant parks and recreation spaces, revegetated water management corridor & walkable streetscapes to support thriving, healthy communities.
