AFFILIATIONS

AILA Student Member

SUMMARY OF EXPERIENCE

Alex is as an Undergraduate Landscape Architect and has worked as a Landscape Technician for 2 Years since completing her Architectural drafting Diploma. Before this, she worked hands on as a gardener.

Having a connection to nature and the landscape is something she believes keeps individuals and communities grounded, with a strong sense of overall health and wellbeing. This is what drew her to the profession, to help create spaces for the community that aligns with this ethos and works towards sustainable development.

She has been involved in several governmental, commercial, rehabilitation and residential projects. She has experience working from the conceptual phase through to detailed design, construction and maintenance. Delivering town revitalisation, inviting school spaces, revegetated ecologically significant habitats, and streetscapes that support new communities.
