

Reece Wenzel

POSITION

Project Landscape Architect

PROFESSION

Landscape Architecture

YEARS' EXPERIENCE

5

JOINED CUSP

2015

EDUCATION

BLArch (Hons) - QUT

SUMMARY OF EXPERIENCE

Reece's philosophical approach to landscape architecture is to provide environmentally sensitive designs within the public realm that allow for people to reconnect to the Green spaces within the urban setting.

During 2016, he graduated from the Queensland University of Technology with a Bachelor of Design, majoring in Landscape Architecture and minoring in Architecture and Business Process Management. In that year Reece also was nominated for the prestigious Karl Langer Award.

During his time at Cusp, Reece has worked on the documentation and coordination of Large-scale Public Infrastructure projects such as Queen's Wharf and the Award Winning Gold Coast Cultural Precinct/HOTA. These projects have exposed him to being a part of multi-disciplinary teams, producing quality documentation and delivering projects through BIM processes which has helped him assist the implementation of BIM within the business.

Reece has expanded his 3D Portfolio within his time working at CUSP working on a range of projects utilising skills such as 3D Modelling/Documentation in Revit, Rendering in Lumion and creating photo realistic renders for project reporting/assessment and community consultation.
