

Anthony

POSITION

Landscape Technician

JOINED CUSP

2023

EDUCATION

Bachelor of Design (Honours) -
QUT

Anthony joined the CUSP team as a Landscape Technician while completing his final year of the Bachelor of Design (Honours) course at QUT. Having previous experience in residential landscape construction and design, he is eager to work on a broad range of project types, locations, and scales, within a team environment.

He is always willing to pick up new software, and so far he is proficient in AutoCAD, Sketchup and Lumion. Anthony is drawn to the possibility of AI in design, as he believes it can be fruitfully integrated into the design process.
