

## Darcy Dunne

### POSITION

Landscape Architect

### PROFESSION

Landscape Architecture

### YEARS' EXPERIENCE

2

### JOINED CUSP

2024

### EDUCATION

Bachelor of Design,  
Landscape Architecture - QUT

### SUMMARY OF EXPERIENCE

Darcy joined CUSP in 2024 as a Landscape Technician, studying a Bachelor of Design Landscape Architecture at QUT. During her studies she has gained interest in wide scales projects such as Masterplanning and National Parks, with a focus on the social impacts these projects have on the broader community.

Darcy's passion for Landscape was largely influenced by her love for coastal environments, growing up on the Far North Coast of New South Wales. This has made her aware of the importance of the natural environment and made her interested in how these spaces are designed, constructed and maintained, in an environmentally sustainable manner.

During her time at CUSP, Darcy has been involved in a range of Queensland Parks and Wildlife Services projects, spanning across the state. She is interest in gaining broader knowledge of place-specific plant species and broader contexts such as exiting landscapes and cultural factors when assisting with the execution of these designs.

### RELEVANT PROJECTS

#### National Park Projects

- > Magnetic Island Lookout, Magnetic Island – Queensland Parks and Wildlife Services
- > Queen Mary Falls Day Use Area, Main Range National Park – Queensland Parks and Wildlife Services
- > Best of All Lookout, Springbrook National Park – WSP
