5

### JOINED CUSP

2026

### EDUCATION

Bachelor of Architectural,  
Studies – Christchurch  
Polytechnic Institute of  
Technology

Bachelor of Landscape  
Architecture  
(Honours) – Lincoln University

### SUMMARY OF EXPERIENCE

Henry brings international experience to CUSP across a diverse portfolio of residential, mixed-use and science and technology developments in the UK, Europe, and New Zealand. Having worked on projects of varying scale and complexity, he has contributed to the creation of distinctive landscapes that enhance everyday experiences and foster meaningful connections between people and place.

With expertise spanning detailed design, planting design, project management, and client engagement, Henry brings a thoughtful and practical approach to landscape architecture. He enjoys working collaboratively with clients, consultants, and project teams to develop design outcomes that are considered and aligned with each project's vision.

Henry has a particular passion for planting design, developing curated planting palettes that respond to the unique cultural, environmental, and functional requirements of each project. Drawing on extensive experience in horticulture and landscape architecture Henry brings a deep understanding of planting, technical design and delivery, creating landscapes that are responsive to their environment and designed to flourish over time.
